ACADEMY SOCIETY

Dear Colleagues,

Due to the rapid spread of COVID-19 and its impact on many countries in the world, severe measures are being applied to limit the spread of the virus as physicians and hospitals deal with this pandemic. Given our inability to assure a faculty presence, coupled with more elaborate restrictions regarding traveling, and of course the health of our faculty, delegates and staff, we have found that converting our congress to an electronic online version is the only responsible course of action.

The annual congress of the International Young Academy of Cardiology (IYAC), that was about to be held at Northern Cyprus from Wednesday, September 16th to Sunday, September 20th, 2020 will be now converted to an **E-Congress**. We are delighted to invite you to take part in the 2nd International Young Academy of Cardiology **E-Congress**.

The goals of this congress is to provide innovative and comprehensive overview of the latest developments in cardiovascular medicine. Additionally, implementing the highest scientific level, interesting and dynamic program, being a unique platform for cardiologists from all over the world. The program aims to update current knowledge and to offer interactive sessions and discussions to the young cardiologists and cardiology trainees, and to help them to improve their skills in everyday clinical practice.

Mark your calendars now and join us each day – from Wednesday, 16 September to Sunday, 20 September.

We look forward to meeting you at IYAC 2020 E- Congress.

Sincerely Yours,

International Young Academy of Cardiology Board Committee
